- Lens available in Clear with or without Anti-Fog coating
- Meets the requirements of ANSI Z87.1 — High Impact
- Black strap masks grease and grime
- Small sizes available, 115S and 116S

### Eye Protection Accessories

#### The right protective eyewear for the job!

All Safety protective eyewear meet the requirements of ANSI Z87.1 — 2003 standard including the high impact classification. Safety protective eyewear also protects against 99% of ultraviolet radiation (UVA, UVB). Durable hard-coating and anti-scratch coating is applied to all protective eyewear unless otherwise stated. Anti-Fog and Anti-Static coatings are available on select styles of our protective eyewear line. We are committed to providing our customers with a quality product.

#### Lens Coating Guide:

<b>Hard Coating</b>	Durable coating permanently bonded to lens to extend lens life
<b>Anti-Scratch Coating</b>	Protective coating on lens that is resistant to scratches in abrasive environments
<b>Anti-Fog Coating</b>	Provides resistance to moisture in high humidity environments and occurrences of temperature shifts
<b>UV Protection</b>	Absorbs more than 99% of harmful ultraviolet radiation

#### Lens Color Guide:

<b>Clear</b>	General indoor use or low light conditions
<b>Smoke</b>	Reduces the visible brightness from the sun and reduces glare from reflected sunlight. Provides good color recognition
<b>Indoor/Outdoor</b>	Clear lens with light mirror coating allows light to reach eye while reducing glare from sunlight, halogen or fluorescent light
<b>Amber</b>	Reduces glare and haze, creating sharpened visual acuity. Does so without reducing brightness due to the eye's increased sensitivity to yellow light
<b>Mocha/Brown</b>	Helps protect against excessive glare from sunlight in outdoor applications
<b>Orange</b>	Reduces eye fatigue by absorbing blue and green light to provide a clearer view
<b>Blue</b>	Provides protection against eye fatigue caused by intense yellow light; such as sodium vapor lamps

#### Spectacle Clean Pouch

- Protects eyewear
- 100% Nylon with drawstring closure
- Serves as cleaning cloth
- Available in Black
- **Dimensions:** 5"W x 9"L

#### Custom Imprinted Eyewear

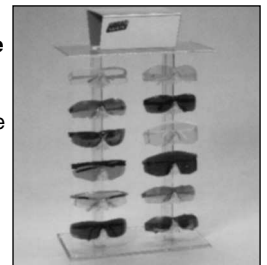

- Most safety protective eyewear styles are now available for custom logo imprint
- Low 72 piece minimum
- Quick lead-time
- One-color logo only

### Sports Strap

- Mono slide adjusts for perfect fit
- Rubberized sleeves tightly hold spectacles
- Available in Black, Blue and Red

### Spectacle Strap

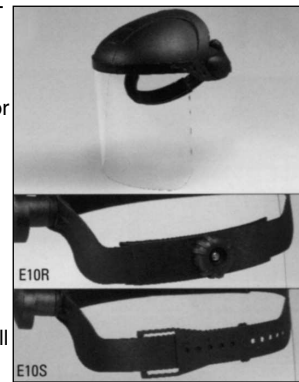

- Keeps eyewear securely in place
- Loops over eyewear ends
- Available in Black, Red, Blue, and Hi-Viz Orange

## Face Protection

### E10 Headgear

- Headgear is offered in both the "Secure-Fit" Mega Ratchet® sizing adjustment E10R and the standard pin-lock sizing adjustment E10
- Resilient cam-lock features hold the face shield in place
- Tension can be adjusted for any fixed or moveable window position
- 8628 Replacement shield available
- Face Shield meets the requirements of ANSI Z87.1 — High Impact
- Face Shields are considered as secondary protection only. Proper eye protection must be worn with face shields

**Note:** New model requires the 8628 replacement shield. 8150 shield will not fit new E10 model. 8150 shield is still available for use with the old model

### Bump Cap/Visor

- ERB #67 Bump Cap
- 8" x 15.5" x .040 clear polycarbonate shield
- Fully assembled with shield attached
- Replacement shields available — Model #1890
- Great for poultry and meat processing plants

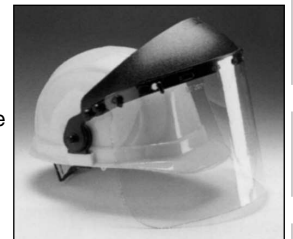

## E12 Deluxe Headgear

- Push and turn ratchet sizing adjustment
  - 4-position locking shield
  - Side knobs increase and decrease tension of shield placement
  - Shield measures 8"W x 12"L
  - Clear, hard-coated\* polycarbonate shield, 1.6mm
  - 8170 replacement shield available
  - Meets the requirements of ANSI Z87.1 — High Impact
  - Face shields are considered as secondary protection only. Proper eye protection must be worn with face shields
- \* Hard-coating provides excellent scratch resistance, prolonging life of shield

## E11 Headgear Attachment

- E11 is designed to fit into the accessory slots of most safety helmets
- Features adjustable tension for ease of window movement
- Easily accommodates polycarbonate face shield
- Face Shield meets the requirements of ANSI Z87.1 — High Impact
- Face Shields are considered as secondary protection only. Proper eye protection must be worn with face shields
- Headgear made in USA
- 8150 replacement shield available
- (Hard hat not included)

## HOWARD LEIGHT

### Hearing Protection

### The highest NRR rating available

MAX (NRR 33) pre-shaped foam earplugs feature a smooth outer skin for maximum user comfort. The NRR 33 rating makes the MAX the best-selling highest-rated disposable earplug in the U.S. The smooth, soil-resistant skin helps prevent dirt from penetrating the surface prior to insertion. Attenuation tested in accordance with ANSI S3. 19-1974. Coral color, packed in poly bags.

Part No.	Description
/8332400	Without cord, packed in ind. poly bags (200 pair per box) MAX-1
/8332402	With poly cord, packed in ind. poly bags (100 pair per box) MAX-30

MAX-LITE (NRR 30) low pressure foam earplugs offer long-term user comfort not found in other pre-shaped foam earplugs. The non-irritating, non-allergenic self-adjusting foam recovers to fit virtually any ear canal. MAX-LITE is also ideal for that portion of the population with smaller ear canals. Green color, packed in poly or paper bags.

Part No.	Description
/8332403	Without cord, packed in ind. poly bags (200 pair per box) LPF-1
/8332401	With poly cord, packed in ind. poly bags (100 pair per box) LPF-30
